Hi Erika-

I messed up entering your email address on the initial try. Hopefully I have it right this time.

Subject: Bremerton Gasworks Draft Community Involvement Plan

Hi Shayne and Erika-

Thank you for agreeing to review EPA Region 10's draft of our initial Community Involvement Plan for the Bremerton Gasworks Superfund site [attached]. The plan lays out how EPA will keep stakeholders informed and engaged as we initiate and move forward with site cleanup activities. The plan also documents community concerns and information about the site that we gathered when we held public sessions in Bremerton last September.

The Community Involvement Plan is a "living" document, meaning it can and will be updated as the cleanup work progresses. We appreciate your interest and willingness to review this version of the plan before we distribute it for wider consumption. We are particularly interested in any ideas you may have on how to inform and involve the public that are not contained in the current version of the document.

It would be most helpful to us if you could provide any comments you may have by close of business on **Friday, April 12, 2013**. If that date proves difficult to meet, please let me know.

Thanks.
